Stay updated with latest web technologies to enhance development process.

PROJECTS

1. Travel Booking Platform | |

Responsive Web Design | CSS3 | HTML5 | RESTful APIs | MongoDB | JavaScript

- A travel booking platform offering various tour packages for national and international destinations
- Integrated features such as real-time searching with debouncing functionality for efficient destination search
- Designed and developed a landing page and an admin panel to manage bookings and revenue statistics

2. A Digital Newspaper | |

Responsive Web Design | CSS3 | HTML5 | Git

- A digital newspaper showcasing the latest news nationally and internationally
- Ensured seamless navigation and accessibility for users across various devices
- Applied modern design techniques to create an engaging and visually appealing browsing experience

3. Figma Pixel Precision | |

Responsive Web Design | CSS3 | HTML5 | Git

- Responsive UI design ensures optimal viewing across devices.
- Incorporated CSS transitions and transforms to create engaging hovering effects, enhancing user interaction.
- Completed the project independently within a 3-day timeframe.
- Utilized HTML, CSS, and Sass to develop the project, adhering to industry standards.
